BREAKING: CBC Building Plastered With Suspected Vaccine Injuries and Deaths

(Toronto, ON) Activists plastered hundreds of suspected Covid "vaccine" injuries and deaths onto the doors and windows of the CBC building on Front St. early this morning. The CBC, Canada's taxpayer-funded media corporation, has been charged by many to be complicit in propagandist lies over the safety of the experimental gene therapies…

while there remains ZERO mention of this event on any of the Canadian mainstream (Corporate/Government funded) NEWS… Not on CBC, nor on CTV, or Global, not even on the Toronto Star or CTV Toronto!

Looking up "vaccine injury" today (in February 2024) we get the following:

Toronto Star - "vaccine misinformation"; a 2021 story of a legal challenge to vaccine mandates; a 2022 story of parents taking their children to the US to get their injections; a 2022 story of one person receiving injury compensation but nothing current.

CBC - Three 2022 stories of people struggling to get their claims heard or "recovering from vaccine injury": "*According to the Vaccine Injury Support Program (VISP) website, 50 of 1,299 claims submitted so far have been approved, with 18 rejected claims under appeal as of Dec. 1, 2022.*"; Single articles on Ross Wightman, Julian Scholefield, Matthew Daw from 2 years ago, no update on their lives since. NOTHING mentioned re: 2024 or re: the events described below.

CTV - Pretty much the same few single person stories as at the CBC, nothing from 2024.

No results found for "Federal Health Agencies and the COVID Cartel: What Are They Hiding". Please try a different search. (CBC, CTV)

Meanwhile, the Global News search engine decided that in answer to my search, I needed to read the infamous 2022 article by Ashley Stewart - REVEALED: How a Web of Canadian Doctors are Undermining the Fight against COVID-19. :-(

THANK GOODNESS for Citizen Journalist Glen Jung for coverage of the 5th in series of International Crisis Summits.

[LIVE COVERAGE] Pivotal ICS5 Headed to Washington, DC, to Shift Public Policy (Feb 21-26)

After 4 pivotal events in Europe (Italian Senate 2021, France 2022, EU Parliament Brussels 2023, and Romanian Parliament 2023), the International Crisis Summit 5 (ICS5) has been called at CPAC in DC 2024 (Feb 22-24), the largest conservative political action conference in the world, and to a Senator Ron Johnson hearing in the US Congress (Feb 26 @9am-1p…

The various parts of the **International Crisis Summit 5** were live-streamed here: https://brightlightnews.com/live-coverage-pivotal-ics5-headed-to-washington-dc-to-shift-public-policy-feb-21-26/

In conjunction with the **INTERNATIONAL CRISIS SUMMIT** event in Washington DC, a number of the same speakers were invited to a separate Round Table event as announced by the office of US Senator Ron Johnson on February 21, 2024:

WASHINGTON *– On Monday, U.S. Sen. Ron Johnson (R-Wis.) will lead a roundtable discussion titled,* ***"Federal Health Agencies and the COVID Cartel: What Are They Hiding?"*** *Sen. Johnson and a panel of experts will expose the truth about how the COVID Cartel – federal health agencies, Big Pharma, legacy media, and Big Tech – engaged in censorship and coverups. This discussion will also shine a light on the failures and corruption of the global elite and their institutions.*

This event took place on February 26, 2024 and can be accessed on Senator Johnson's Rumble Channel, on the Childrens' Health Defense Rumble Channel and likely on others.

Here is a bird's eye view of the speakers and their approximate start times as per the recording on Senator Johnson's channel - Where I am aware of a clipping of the single person's testimony, I have added a hyperlink. While ALL of these are super valuable, I have added my own commentary to just a few.

Senator Johnson's introduction (30 minutes in)

COVID-19 VACCINE ISSUES:

- **Dr. Robert Malone, MD** (42 minutes)
- **Dr. Jessica Rose, PhD** (50 minutes)

WORLD HEALTH ORGANIZATION (WHO) TREATY:

- **Rob Roos** (4:00)
- **Phillip Kruse** (4:09)

Here and there we are finding coverage of the larger event - the International Crisis Summit. But only on the websites of participants. NOT on mainstream media. On February 26, for example, the CBC chose to cover airline fees, curling, a lost phone, old hockey cards, Joe Biden's age problem and the "hurdles" the Online Harms bill has had to overcome. NO analysis that the while seeking to block online harms (like access to children by predators) the bill can likely institutionalize the kinds of harms of currently already being perpetuated by media - blocking citizen access to critical life-saving information. With concerns around MIS/DIS/MAL information, what about the concern of taxpayers that the media outlets they have been compelled to support provide NON-information? Imagine we all need to pay taxes to access the local tap water supply. But then we find out that our water is poisoned BUT we need to keep paying for it while we pay for a private water supply? That might be a way to describe what his happening with our taxpayer funded media.

Back to the ICS5:

Here is the agenda as posted by Dr. Robert Malone along with his speech.

International Crisis Summit-5 Agenda

As most of you know, I have been co-organizing the ICS 5 as well as helping Senator Ron Johnson get ready, organize and recruit speakers for his separate Senate testimony on the following Monday. I am super excited about both this summit and the Senator's initiative, and I believe that it is vital to bring the fighters for the freedom and anti-globalism…

Here is the website of the ICS organization, showing some of the live-streams from the February 2024 gathering. Scrolling down further, you will find the recordings of the previous gatherings such as the Nov. 2023 gathering in Rumania.

Here are various reports of the scope of presentations at the International Crisis Summit which is being held in tandem with the above mentioned Round Table, as well as with a major US Conservative gathering allowing a wider range of US politicians to hear first hand from the critical experts featured.

Imagine Canadian politicians planning their caucus retreat in the same spaces and having direct access to people with this level of up to the minute scientific information on the greatest matter to affect our country these past 4 years!

The best we can do is point our decision makers and journalists at all levels to these links and hope and pray they have sufficient intellectual curiosity to open them up!

For more coverage, if you are on Twitter/X - people are starting to post clips of "International Crisis Summit 5" there.

For example, this speech by James Lindsay was shared by Edward Dowd as particularly insightful.

In my next post, I felt compelled to respond to various "haters" of some of the speakers participating in ICS5, people see themselves as self appointed warriors for the "public health narrative."

Earlier symposiums (including Crisis Summits) can be accessed here:

https://totalityofevidence.com/resources/symposiums-conferences/ A number of the speakers listed above have also been profiled in this list of credentialed experts, with links to their previous presentations and publications.

Another must-hear is the speech by Dr. David Martin, also help at the ICS5.

Here is a PDF outline of a speech given in October 2023 by Dr. David Martin which provides people with a print copy of pretty much the same information that he discusses in his speeches. It might be useful to have the direct quotes and dates that Dr. Martin references the most frequently.

Here is the Fauci Dossier prepared by Dr. David Martin re: the patent history related to the recent COVID-19 saga.

And, for an even fuller picture, note that both parts of the documentary **The Great Setup with Dr. David Martin** are now circulating on the internet.

And while we are on the topic of BIG revelations, please do take the time to listen to Trucker Carlson's interview on the US national security state, censorship and military rule with Mike Benz, founder of Foundation for Freedom Online. Here, he is described by the folks at "naked capitalism" as:

> *Formally Deputy Assistant Secretary for International Communications and Information PolicyBureau of Economic and Business Affairs in the Trump Administration. He has also been the subject of a 2023 hit piece by NBC. Benz claimed that his covert seeming white-supremacist project was to fight anti-semitism by converting white supremacists.* (Source)

LOTS OF KEY INFORMATION ON ALL LEVELS to share with journalists who wish to find out why in their day-jobs they are NOT allowed to do their jobs!

When the news media stay silent on these critical matters of national and international concern, they should not wonder why no one takes them seriously anymore.

I did find the whole of the 5th International Summit on Youtube and am enjoying it evenings. So many good things said and so many good speakers! Also the Senate hearing was terrific! The leap from Läkarupproret in Stockholm some time ago, when you first appeared on the scenes to yesterdays Senate hearing with the honorary place to the right of Senator Johnson, and first to speak, is just mindblowing. It goes to verify all your tenacious and many faceted good work and to us ordinary lay public understandable opposition against Evil Pharma and other attacks.. God bless you, Jessicar, and your ongoing work, we are behind you and awaiting for more.....
